

2009 Stimulus Energy Tax Credit

How can it benefit you?

Highlights from the American Recovery and Reinvestment Act of 2009:

- This incentive applies to consumers.
- The tax credit incentive period has been increased to two years through Dec. 31, 2010.
- The tax credit incentive applies to qualified remodeling projects which improve the energy efficiency of an existing home including the replacement of windows and doors.
- The tax credit has been raised from 10% of remodeling project total cost to 30%.
- The maximum credit for windows and doors has been raised from \$250 to \$1500.

Who Qualifies?

- Homeowners that purchased qualified window or door products between Jan. 1, 2009 and Dec. 31, 2010
- Window or door Products' U-Factor is 0.30 or lower.
- Window or door Products' SHGC is 0.30 or lower.

What Should Homeowner Do to Claim Credit?

- Keep original sales receipt showing total window and door product purchase price.
- Retain NFRC label from window or door glass panel.
- File Federal taxes and claim credit. Consult with IRS; your accountant or a tax professional for details.
